

MILITEC-1[®]

*Synthetic Based
Metal Conditioner*

Race Proven !

MARTINI/MILITEC Porsche driven by Bill Follmer

MILITEC USAC Midget

“A FUEL SAVER AND PERFORMANCE ENHANCER”

*Scientifically engineered to protect all metal surfaces with a molecular bond of synthetic-based lubricants. Contains no Teflon[®] or solids of any kind**

Reduces friction and heat in gasoline and diesel engines, gearboxes, transmissions, compressors, pumps, hydraulic systems, and in all metal-to-metal applications. Enhances survivability of essential equipment when there is a loss, contamination by water or solvents or non-existence of the primary lubricant.

Certified and approved for use by the U.S. Navy. (J&A No.89-006)

*Teflon is a registered trademark of E.I. Du Pont de Nemours & Co.(Inc.)
